AP06 – Sort 3 words (Tutoring24/7)

Ing. Luis Humberto González G

Forma de Trabajo: Individual.

Given 3 words should be sorted alphabetically in ascending order

Input

In the first line come n ($0 < n \leq 20$), indicating the number of cases, then three words (maximum length of 10 characters for each word) arrive later for each case.

Output

For each case, print three words arranged in a ascenedente separated by a blank space between them

Sample Input

```
3
HOLA CRAYOLA PEPE
ARRIBA LOS RAYADOS
HOY MAÑANA AYER
```

Sample Output

```
CRAYOLA HOLA PEPE
ARRIBA LOS RAYADOS
AYER HOY MAÑANA
```
